Riverside Secondary School | Windsor, Ontario | Graduated 2022

Projects

Orbite Parser - Document Parser for LLM's

Personal Project | Windsor, Ontario | January 2024 - Current

- Developed a document parser using Javascript that extracts content from various common file formats such as portable document format, Word documents, PowerPoints, HTML webpages.
- Designed an API using Node.js that organizes extracted content into JSON format for an intuitive developer experience when implementing LLM's and tools that use LLM's.
- Reverse engineered scorm packages to extract content from eLearning modules.

Platformata – Game Design with Automata Theory

University of Windsor | Windsor, Ontario | March 2024 - May 2024

- Researched and developed a method to design video games using concepts of finite automata theory.
- Wrote a paper using Latex and Markdown that explores current usage of automata theory in game development and expands on the area by purposing a new method for game development.
- Designed game levels for a concept 2D platformer using draw.io.
